

# DHANYA DWIVEDI

Greater Noida, Uttar Pradesh, India | (+91) 9621868986

Portfolio | [dhanyadwivedi170304@gmail.com](mailto:dhanyadwivedi170304@gmail.com) | [linkedin.com/in/dhanya-dwivedi](https://linkedin.com/in/dhanya-dwivedi) | [github.com/dhanya-017](https://github.com/dhanya-017)

## PROFESSIONAL SUMMARY

Final-year Computer Science Engineering student (Class of 2026) with hands-on experience in full-stack software development and backend system design. Strong foundation in data structures, object-oriented programming, RESTful APIs, and SDLC. Experienced in building, optimizing, and deploying production-ready applications using modern frameworks. Actively seeking Software Developer / Software Engineer roles.

## EDUCATION

**Noida Institute of Engineering & Technology**

*Bachelor of Technology in Computer Science Engineering / CGPA: 7.63/10*

Greater Noida, India

*July 2022 – July 2026*

**Relevant Coursework:** Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Object-Oriented Programming, Software Engineering

## TECHNICAL SKILLS

**Programming Languages:** Java, Python, JavaScript, TypeScript, SQL

**Backend & APIs:** Node.js, Express.js, Spring Boot, RESTful APIs, Authentication & Authorization

**Frontend:** React.js, HTML5, CSS3, Tailwind CSS, Redux

**Databases:** PostgreSQL, MySQL, MongoDB

**Engineering Fundamentals:** Data Structures & Algorithms, OOP, Design Patterns, SDLC, Agile

**Tools & DevOps Basics:** Git, Postman, CI/CD fundamentals, Deployment Validation, Debugging, Unit Testing

## PROFESSIONAL EXPERIENCE

**Business Curative**

*MERN Stack Developer (Part-Time)*

Delhi, India

*January 2026 – Present*

- Optimized and enhanced a production e-commerce platform to improve performance, scalability, and reliability
- Refactored backend and frontend components to reduce technical debt and improve maintainability
- Managed deployments, environment configurations, and post-deployment validation
- Performed unit testing, debugging, and performance tuning to ensure stable production delivery
- Collaborated with cross-functional teams to implement feature improvements based on business requirements

**Business Curative**

*MERN Stack Developer Intern*

Delhi, India

*September 2025 – December 2025*

- Designed and developed a full-featured e-commerce application using the MERN stack
- Implemented core modules including authentication, product catalog, cart, and order workflows
- Built RESTful APIs and integrated frontend with backend services and databases
- Conducted testing, bug fixes, and documentation to support production readiness

## TECHNICAL PROJECTS

**Eatalyzer – AI-Powered Food Scanner** | *React, TypeScript, PostgreSQL, TensorFlow, OpenCV*

- Built a full-stack AI-driven application that analyzes food images to calculate calorie intake and nutritional information
- Integrated TensorFlow-based deep learning models with OpenCV for image preprocessing and food recognition
- Designed scalable backend services with a PostgreSQL database, ensuring data security and reliability
- Implemented RESTful APIs with optimized query performance to serve real-time nutrition data to the frontend

**Travel Planner & Booking Application** | *Java, Spring Boot, JDBC, Servlets, JSP*

- Built an enterprise-grade Java EE application supporting real-time travel planning and booking workflows
- Designed concurrent session handling using queues and hash maps to enable a secure distributed booking system
- Implemented thread-safe booking logic to prevent race conditions and ensure data consistency across multiple users
- Integrated external REST APIs for flight and hotel data to provide a seamless booking experience
- Built authentication and authorization mechanisms using Spring Security for secure user access management

## ACHIEVEMENTS & LEADERSHIP

Solved 300+ DSA problems, strengthening problem-solving and algorithmic thinking

Vice President – NIET Alma Mater Club: Led teams, coordinated events, and managed stakeholders

Content Writer Head – Khushiyan Baaton Club: Improved documentation quality and communication standards

IEEE Student Member: Active participant in technical workshops and seminars
